

Seasons and weather

Seasons

There are four seasons: Spring, Summer, Autumn and Winter. The length of a day varies depending on the season.

I can observe changes across the four seasons.

I can observe and describe weather associated with the seasons and how day length varies.

Weather is the way the air and the atmosphere feels. It includes the outside temperature, strength of the wind, and whether it is raining, sunny, hailing, snowing, sleet, foggy, or cloudy. The weather changes regularly and tends to be different during different seasons and across different countries.

Weather symbols		
Sunny 	Cloudy 	Heavy rain 
Heavy sleet 	Heavy sleet showers 	Heavy snow 
Light rain 	Overcast 	Rain showers 
Sleet showers 	Snow showers 	Sun with grey clouds 
Heavy rain showers 	Heavy snow shower 	Scattered clouds 
Sun with light clouds 		

Gathering and recording data to help answering questions.	Observing closely using equipment.
Answering simple questions and recognising that they can be answered in different ways.	Using observations and ideas to give answers to questions.
