

Year 2 Science Living Things and Their Habitats Pentecost 1

Key Vocabulary

life processes	These are the things that all living things do. They move, breathe, sense, grow, make babies, get rid of waste and get their energy from food.
food chain	A food chain shows how each animal gets its food. Food chains are one of the ways that living things depend on each other to stay alive.
food sources	This is the place a living thing's food comes from.
habitat	A habitat is the natural place something lives. A habitat provides living things with everything they need to survive such as food, shelter and water.

Key Knowledge

living

dead

never living

Food chains. The arrows mean 'is eaten by'.

Examples of **habitats**:

woodland

urban

coastal

rainforest

arctic

desert

ocean

river

mountain
