

Year 4 Science Advent 1 Living Things & Their Habitats

Key Learning

- Recognise that living things can be grouped in a variety of ways.
- Explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment.
- Recognise that environments can change and that this can sometimes pose dangers to living things.

Key Vocabulary

Vertebrate	An animal with a spine. (Backbone)
Invertebrate	An animal without a backbone.
Exoskeleton	A type of skeleton on the outside of an animal's body.
Habitat	A place where a plant or animal lives.
Biodiversity	The variety of living things in a habitat.
Rewilding	A method of increasing biodiversity by reducing human activity.
Nature Reserve	An area where living things are protected from human activity.

Classifying Vertebrates

Mammals

Fish

Birds

Amphibians

Reptiles
